TECHNICAL DATA

ECOCLEAN 2000 - DECONTAMINANTS FOR STAINLESS STEEL

Decontaminant for austenitic steel

ECOCLEAN 2000 is an environmentally friendly solution specifically designed for cleaning stainless steel surfaces. This product is totally free of chlorine ions and is particularly effective in removing thin layers of oxides from stainless steel surfaces.

PRODUCT FEATURES

- Facilitates complete decontamination of stainless steel, promoting passivation **in a single pass**;
- Suitable for **removing oxides from aluminum** and its alloys;
- Does not release harmful gasses.

INSTRUCTIONS FOR USE

ECOCLEAN 2000 is ready to use and can be applied with ease. Below are the instructions for use:

- **APPLICATION:** to distribute the product, use a plastic brush, a low-pressure pump or the ready-to-use packages, depending on the size of the surface to be treated. The application time of ECOCLEAN 2000 can vary from a few minutes to 2 hours;
- **RINSING:** to complete the treatment, carry out a high-pressure wash with demineralised water.

In many cases, ECOCLEAN 2000 is used in conjunction with other final treatments to avoid unwanted halos and stains. Delmet is always on hand to suggest the best combination for optimum results.

PRECAUTIONS FOR USE

Before use, be sure to wear the appropriate personal protective equipment (PPE) and carefully follow the directions on the product safety data sheet.

WASTEWATER DISPOSAL

Please note that the wash water resulting from the use of ECOCLEAN 2000 is acidic and cannot be discharged directly into the environment unless it is properly purified.

istruzioni d'uso

Delmet offers manual or automatic equipment for this type of treatment.

AVAILABLE FORMATS

ECOCLEAN 2000 is available in different options to meet your needs:

- ECOCLEAN 2000 **6 x 850 g pack** (PC01080)
- COCLEAN 2000 - **10 kg pack** (PC00031)
- ECOCLEAN 2000 - **30 kg pack** (PC00032)
- ECOCLEAN 2000 - **1,000 kg package** (PC00034)

Choose the most suitable format for your needs to ensure efficient and environmentally friendly cleaning and protection of your stainless steel surfaces.
